Tereos successfully places a €400 million 7-year bond

Tereos successfully placed today bonds for an amount of €400 million, with a maturity of June 2023 and a coupon of 4.125%, with more than 200 European investors. These new bonds have been rated “BB” by the rating agencies, Standard & Poor’s and Fitch.

This transaction, which was more than 4 times oversubscribed, demonstrates the institutional investors’ positive appreciation of the Group’s financial solidity and prospects. Through this transaction, the Group reinforces the diversification of its sources of financing, by increasing the share of bonds in its mid-to-long term financings. In March 2013 the Group had already issued 7-year bonds for an amount of €500 million, carrying a coupon of 4.25%.

This bond issue has been successfully realized with the assistance of the group’s relationship banks, BNP Paribas, Natixis and Rabobank (Global Coordinators and Joint active bookrunners), Crédit Mutuel-CIC and HSBC (Joint active bookrunners), Commerzbank and ING (Joint bookrunners).

This long term market financing is part of the program of advance refinancing of certain bank lines, including, amongst others, the €170 million bank line at the level of Tereos EU, maturing in September 2017.

This transaction, combined with the advance refinancing of Tereos UCA’s bank lines secured earlier on 6th June, for 5 years and an amount of €225 million, reinforces the strong liquidity of the Group and enables a significant lengthening of the average maturity of its financings and a good maturity profile.

Tereos was advised by Rothschild & Cie in these transactions.
